PROFESSIONAL EXPERIENCE

Director of Engineering

Nov 2021 — Present

DemandFarm Inc. · Pune, India

- Architected an **agentic AI system** transforming CRM data and call recordings into actionable account insights using LangGraph, Azure OpenAI, and Portkey AI Gateway.
- Created **Account Central**, a CRM-agnostic B2B Key Account Management platform listed on Microsoft AppSource; automated upsell/cross-sell discovery for sales teams.
- Designed scalable, modular **ETL connectors** for Dynamics 365, Zoho, HubSpot, Pipedrive, Outlook, Teams Transcripts, and Google Calendar — serving 20+ global enterprises.
- Implemented event-driven microservices with **Apache Kafka** and centralized observability via Prometheus & Grafana across distributed clusters.
- Led **20+ enterprise implementations** and 10+ automation projects; drove 20+ VAPT cycles ensuring SOC 2 and ISO 27001 compliance.

Principal Product Engineer

Apr 2017 — Oct 2021

DemandFarm Inc. · Pune, India

- Built enterprise Account Planner with Java Spring MVC, MySQL & AngularJS — finance heatmaps, org charts, and PowerPoint export for account reviews.
- Developed native KAM apps (Orgchart & Account Planner) for **Microsoft AppSource** with deep Dynamics 365 CRM integration via SDK and Web APIs.
- Shipped a modern **React + Chakra UI** web application; mentored 10+ engineers through code reviews and performance feedback.
- Delivered CRM connectors and event-driven integration workflows for 20+ global B2B clients.

Product Engineer

Jul 2013 — Mar 2017

DemandFarm Inc. · Pune, India

- Customized SugarCRM CE into the original KAM prototype with planning, engagements, invoicing, and account dossier modules.
- Evolved prototype into a full product that secured **angel investor funding** and became the standalone entity DemandFarm.

Java Developer

Aug 2011 — Jul 2013

Krishagni Solutions Pvt. Ltd. · Pune, India

- Enhanced **caTissue / OpenSpecimen**, a clinical biospecimen data management system, streamlining lifecycle management and translational research workflows.
- Tech stack: Java, Apache Struts, JavaScript, DHTMLX.
